high-quality data and list
management solutions.

B2B
Global Access

Who are we?

B2B Global Access was established with an objective to offer outstanding data solutions to clients across the globe. From target prospect list building to data appending, we offer it all.

**Every business
requires a
strong
database for
their
marketing
campaigns**

What we do?

B2B Global Access does not follow the one-size-fits-all approach. We understand that every business is not the same. Unlike many other data providers out there, we do not sell you something off our menu. Instead we understand your business needs and create a personalized database just for you. One of the biggest challenges any business face when it comes to marketing is budget. At B2B Global Access, we have data solutions for every budget. Not sure what is the best marketing strategy for your business? Get in touch with us today and one of our marketing experts will guide you through the process.

Our services

Business Mailing List

With over 63 million verified contacts with emails, B2B Global Access has a comprehensive database.

Our business email lists are updated real-time and are sourced by a team of 75 data specialists. You can now get 22 critical data points offered for each record including the accurate email ID with a one-year unlimited usage licence.

Our database has helped many businesses from the healthcare, technology, hospitality, manufacturing and other industries increase their marketing ROI and closure ratio. Make your next email campaign effective with our business mailing lists.

Data Appending

Database with missing information is as good as not having a database. This will have a negative impact on your marketing campaign.

Through data appending services offered by B2B Global Access, you can match accurate information against the current records present in your database and add the missing fields. Some of our Data Appending Services are:

- B2B and B2C Email Appending
- Phone, Fax, and SIC Code Appending
- Social Media Appending
- Key Contact and Job Title Appending
- Reverse Appending

Our services

Data Solutions

Our other data solutions include Data Licensing, Email Marketing Data Solutions, Data Enhancement and Annual Maintenance Contract Service.

Marketers rely on us to make their marketing campaigns effective, backed by high data management offerings. Not sure which data solution will suit your business requirements? Contact us today!

Targeted List Building Service

Finding new customers is very important for any business. If you are not a fan of buying our existing business mailing list, we can build one for you. With our custom list building service, you can reach your target audience. We hand-pick contacts based on well-defined criteria as per your requirements. We find the business leads that matter to you. Give us the business lead criteria and we will tell you what your potential marketing universe is.

How Unique is our Data?

"Upon receiving and reviewing the list we began our marketing efforts to the purchased list – which came back with over a 95% return of successful emails. Something that blew us away!

B2B is a great company to work with and I look forward to using them again in the future."

- Victoria Del Pizzo, EVP
Marketing

"I wouldn't say we have got accurate results all the time but, with their strong customer support & Data team they have helped us with solutions and rectified our concerns which has won our trust and is the reason we have a strong business alliance with B2B Global Access."

- Dane Fergus, VP Sales &
Marketing

TESTIMONIALS

"Me being a Digital Marketing Manager from a Media and Publishing company, holds me responsible of maintaining a huge volume of records for the company. B2B Global Access has made my job easier with their Data Cleansing & Data Appending services."

- Jacqueline K, Digital Marketing Manager

"We were hesitant to invest in a mailing list before we found B2B Global Access. Our email marketing campaigns have been very effective after we choose B2B Global Access to be our data partner. They understand our target audience and always provide us the right list."

- Joan Thomas, Head of Marketing
